I've not seen it and no one has spoken to me about it. I have a 3hr Nawi-led BDCP call today so perhaps he will share.

I could talk today after noon (or whenever the Stoner brief is over) and 1:30, my time.

There's an all-day mtg Friday on Roundtable follow-up. We owe \$2500 plus I will need to volunteer for something, I think. I'll let you know what.

Subject: Fw: 4/27 version -- draft memo from sec'ies salazar and locke to fed bay-delta leadership committee re: bay delta integrated science

Karen,

Have you seen this? I thought you had at one point mentioned to me that the NAS review of the BiOps had some input or thoughts on some of the work that falls under our authorities/programs/ actions in the action plan or what have you. Let me know if you have any comments. I didn't see anything in there but I need to check to see if this is an FYI or a call to action of some sort.

We should also chat about the roundtable and what we are on the hook for.

thanks

Roger
